Objective:

To leverage my expertise in React, Vue, and Angular to craft responsive and accessible user experiences as a Mid-Level Frontend Engineer.

Education:

Bachelor of Computer Science, Metropolitan State University of Denver, Mathematics Minor, May 2017

Web Developer Bootcamp, Ironhack Miami, July 2021

Experience:

Fjellworks Software

Frontend Developer

05/2024 - Present

- Developed scalable web applications using React, Vue, and Angular, ensuring modular and maintainable components with clean logic.
- Integrated REST APIs and managed state with Redux for optimized rendering performance.
- Containerized applications with Docker for seamless deployment and scalability.

Proscia Inc

Software Engineer

09/2021 - 05/2024

- Upgraded codebase to Vue 2 and reverse engineered React.js components to enhance user experience.
- Collaborated with designers to implement pixel-perfect UI components from Figma mockups.
- Ensured accessibility compliance by writing FDA and GDPR documentation for enterprise launch.

Freewave Technologies

Unity Developer Intern

08/2018 - 06/2019

- Developed core functionality for augmented reality tools on Android and iOS platforms.
- Enhanced performance and visual elements to improve user experience in beta testing phases.
- Collaborated in cross-functional teams to integrate new features and unit tests.

Skills:

React | Vue.js | Angular | TailwindCSS | JavaScript | HTML5 | CSS3 | REST APIs | Docker | Redux
| Node.js | Git | Agile Methodologies
